

BETTER GROW BETTER GRAZE

Common sense tools and strategies to increase productivity and returns.

- ***Grow more feed***
- ***Grow better quality feed***
- ***Graze more feed***
- ***Capture more feed value***

Agronomy and Grazing Management

The program provides participants with knowledge and skills required for the adoption of best practice in pasture agronomy and grazing management.

Monitor paddocks assists in adoption

Participants use monitor paddocks on local farms or their farm to trial course concepts to help see how the program principles can be adopted.

Tel: (02) 4832 0803 M: 0409 816 433
